EXPLANATION OF BALANCE ON WHICH FINANCE CHARGE IS COMPUTED FOR CONSUMER LINES OF CREDIT ONLY

Daily Balance Method (including Current Transactions)

We figure the finance charge on your account by applying the periodic rate to the "daily balance" of your account for each day in the billing cycle. To get the "daily balance" we take the beginning balance of your account each day, add any new advances, and subtract any unpaid finance charges and any payments or credits. This gives us the daily balance.

LOAN PAYMENT NOTICE

All loan payments must be accompanied by the account number or payment coupon provided and must be made by a check, automatic account debit, electronic funds transfer, money order or other instrument in U.S. Dollars. Payments received by the bank at the address shown on the front of this statement by close of business will be credited to your account that same day. Payments received after close of business will be credited the following business day. We may modify these payment instructions, including changing the address for payment, by providing updated payment instructions on or with your periodic billing statement.

Special Message

New credit card processing fees were adopted by Carrollton City Council on September 9, resulting in a convenience fee increase from the current 2% to 3.5%. The new rate will go into effect for all credit card payments made on or after October 1 to cover the increasing costs associated with credit card processing. Cash, check, and auto bank draft payments continue to be free payment options.

When you provide a check as payment, you authorize us either to use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction.
